Work Experience

June 2024 – Present
Front-end React Developer
BlackDeep Technologies

Develop and maintain **React** applications using TypeScript, **React Query**, and **Tailwind CSS**.
- **Lead** a small frontend team and ensure code quality through PR reviews.
- Integrate **AI services** for a real-time chat and image generation.
- Implement subscription and payment processing.

December 2022 – May 2024
Full-stack JavaScript Developer
C4 Nexus Ltd

Built and maintained both **back-end** and **front-end** features using JavaScript and React.
- Worked on two e-commerce projects: SFRA application, and a **React** PWA Kit application.
- Worked as part of a multinational team while following the Scrum methodology.

April 2022 – Present
Full-stack Contract Developer
Self Employed

As a full-stack contract developer, I work on diverse projects for different companies
- Currently developing a showcase website using **Next.js**, Tailwind CSS, **Loveable**, and Cursor.
- Develop and support a custom warehouse management system using **React**, Chakra UI, and **React Query**.

I have all my **tech** work experience written on LinkedIn.

Education

Bachelor of Software Engineering
University of Veliko Tarnovo
Graduated: 2023

JavaScript Developer Diploma
Software University (SoftUni)
softuni.bg/certificate-link

Projects

- **MERN** article platform with **role-based** auth. Users write, explore, and vote on articles. React, TypeScript, **Express**, and MongoDB.
  - github.com/alexpeev9/Silver Articles
  - silver-articles.vercel.app

- **Next.js** web app with **PostgreSQL** and **Tailwind CSS** featuring dynamic routes displaying weapon categories and individual weapons.
  - github.com/alexpeev9/NextJS-Dark-Souls-Weapons
  - dark-souls-weapons-project.vercel.app

Availability

- I am open to working remotely, hybrid, and **on-site** from **Sofia**.
- Please note that my current employment requires a **one-month** notice period.
